<b>RECOMMENDATION OF ACCEPTANCE</b>			
<p>I have reviewed the risk assessment for the risk I am recommending be accepted. I understand the hazard, the risk, the cause and the consequences of the risk on the mission, personnel, and the environment. I have evaluated the recommended corrective actions and the mission requirements. After careful consideration, I am recommending that the risk and possible consequences should be accepted due to the constraints it imposes on the mission's execution and/or unavailability of a timely, cost-effective, corrective action.</p>
